## ECONOMIC AND INVESTMENT POTENTIAL

The **industrial sector** is represented by **crushed stone products** manufacture.

The community's **forest resources** are sufficient to support the development of the **wood processing industry**, and its **deposits of amber and construction minerals (granite)** are among its key natural assets.

Company with Limited Liability "Lisotechnolog Ukrainy" operates a **sawmilling and planing production**. At the same time, there are up to 30 private sawmills and several stationary drying chambers for timber functioning across the community's settlements.

Within the territory of community, 43 special permits for the use of **amber-bearing subsoil plots** have been issued through electronic auctions. Currently, 8 subsoil users are conducting economic activities related to exploration and extraction on the aforementioned plots.
